

How to Find a Dental Provider in Network

It's important to select the right dental provider for you and to know if they're in or out of your insurance network. To find a dental provider in network, please follow the steps below.

Step 1:

- Visit <https://www1.deltadentalins.com/individuals/find-a-dentist.html>

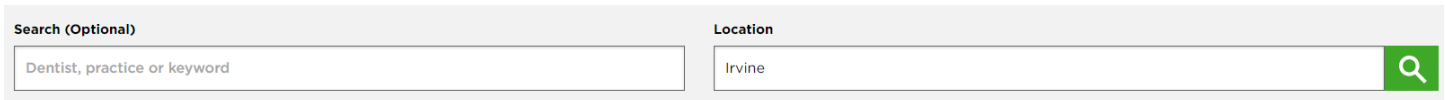

The screenshot shows a green header with the text "Find a dentist" in white. Below the header, there is a white box containing the search form. The form has two input fields: "Location*" with a placeholder "Enter address, city or ZIP code" and "Network*" with a dropdown menu showing "Select a network". Below these fields is a green button with the text "Find a dentist" in white.

Step 2:

- Enter your location by address, city or ZIP code
 - Next, select your network
 - Delta Dental PPO
 - Delta Dental Premier (additional option; however, provider discounts are not as substantial as Delta Dental PPO)
 - Click on "Find a dentist"

Step 3:

- You can search for a specific Dentist, specialist, or enter a keyword (e.g., braces)

The screenshot shows a search bar with two input fields. The first field is labeled "Search (Optional)" and has a placeholder "Dentist, practice or keyword". The second field is labeled "Location" and has a placeholder "Irvine". To the right of the "Location" field is a green button with a white magnifying glass icon.

Step 4:

- Click on “Refine Search” and you will be able to sort the list of providers by best match or distance
 - You can also add additional filters such as editing the number of miles you’d like your search to stay within, searching only for those who are accepting new patients, provider specialties, and much more
