# HELPING HORSES Stay Healthy

## Preventive Care Coverage

Get cash back for routine services that help keep your horse healthy with preventive care coverage. This optional coverage can be added to your base plan for just a little more each month.

### What are the benefits of preventive care coverage?

Things like wellness exams, vaccines and dental floating can help keep your horse from getting sick. Regular check-ups let your veterinarian detect health problems in the early stages, which can mean a better outcome for your horse.

### Why consider this coverage?

If you're already paying for your horse's preventive care, why not get cash back for it? If you haven't been staying on top of it, this coverage can prompt you to make those appointments so you can get your reimbursements.

### How does it work?

You can add one of our preventive care coverage options to one of our base plans for just a little more per month. Each preventive care coverage option has a list of covered services, and each service has a set maximum annual benefit amount. There's no deductible or co-insurance amount. These benefits are available as soon as your plan is effective.

## PREVENTIVE CARE OPTIONS

Coverage for the following services:
